MATH BLASTER!™

Dear Parents and Teachers,

As a parent and teacher myself, I know what **Math Blaster** can do for your children. It will help them develop the basic skills in math that are necessary to be successful.

Math Blaster, like all our software, was designed by teachers and tested in classrooms. Davidson software has received many awards from parent, teacher, and industry organizations. While we are proud of our awards, the letters we receive from parents, teachers, and students who use and love our software are a greater source of pride.

Jan Davidson

Jan Davidson, Ph. D
Founder and President
Davidson & Associates, Inc.

P.S. Please let me hear from you. Your children's successes are our greatest reward.

Level

Ages 6-12/Grades 1-6

Benefit

Builds basic skills in math fundamentals:

- Addition and Subtraction
- Multiplication and Division
- Fractions, Decimals, and Percents

Apple II Screen

Math Blaster Game Activity
As they play the arcade-style game, students develop a love of math and master important math facts.

Features

- Over 600 math equations grouped into "families of facts"
- Four learning activities that include timed exercises
- Arcade-style game that can be accessed at all levels
- Easy-to-use editor to add your own math problems

Apple II Screen

Build Your Skill Activity
In this activity, students develop mastery as they solve each equation. When the final score is displayed, students can re-take missed problems and improve their scores.

Challenge Yourself Activity
Students receive additional practice and develop skills in this activity.
